

First Bank of Highland Park

Where Community is First!

Family Network's After School Activities Program

The community is invited to stop by First Bank of Highland Park throughout November to view artwork exploring the theme of diversity created by students enrolled in Family Network's After School Activities Program. The artwork was produced during a series of twelve workshops led by New Trier High School student, Izzy Cox to attain her Girl Scout Gold Award. This award represents the highest achievement in Girl Scouting, given to those who demonstrate extraordinary leadership through seven-step projects that have sustainable impact in their communities.
