

Personal Mobile Banking Enhancements

First Bank of Highland Park (FBHP) will be updating our Personal Mobile Banking Application with Scheduled Transfer Enhancements. Details of this new feature are described below:

Scheduled Transfer Enhancement

Scheduled Transfer Enhancement is a new feature that allows a user to schedule one-time, future-dated internal transfers. This allows users to transfer money from one account to another on a specified date in the future. This can be accomplished by tapping the **Transfer** option in the navigation bar at the bottom of the screen. When the Transfer menu appears tap **Make a Transfer** or **Make an Internal Transfer** depending upon the tiles that are available. When the Transfer screen appears complete the defined fields:

- From Account
- To Account
- Amount
- Date (if no date is scheduled the transfer will be processed instantly)

When complete tap **Transfer**, then tap **Confirm** and the system will schedule the transfer to occur on the date you selected.

After scheduling transfers, users will be able to view or delete the transfers within Personal Mobile Banking.

To **view or delete a scheduled internal transfer** tap the **Transfer** option in the navigation bar at the bottom of the screen and the Transfer menu will appear. Tap the **View Scheduled Transfers** tile and the Scheduled Transfers will appear showing all internal transfers scheduled through both Personal Mobile Banking and online banking. To view the details of the transfer tap the scheduled transfer. If you wish to delete the transfer tap **Delete**. You will be required to **confirm** your deletion and the transfer will be deleted.
