First Bank Chicago

Community Reinvestment Act Public File

As a full-service financial institution, First Bank Chicago is dedicated to the development of various initiatives intended to support the financial needs of the residents within its communities. In addition to providing a contemporary mix of financial products and services, our institution strives to provide specialized initiatives to support the specific financial needs throughout our communities, which are collectively designated as our Facilities-Based Assessment Area. Various products and activities are designed to support those geographies and individuals defined as financially disadvantaged.

This digital CRA Public File provides the following information summarizing our institution's Community Reinvestment Act performance and activities within our communities. Clicking each link below will take you directly to the corresponding section.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated <u>Satisfactory</u>.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities. Examiners did not identify any evidence of discriminatory or other illegal credit practices.

| PERFORMANCE LEVELS | PERFORMANCE TESTS | | | | | | | |
|---------------------------------------------|---------------------------|------------------------------|------------------------|--|--|--|--|--|
| | Lending Test* | Investment Test | Service Test | | | | | |
| Outstanding | | | | | | | | |
| High Satisfactory | | | Х | | | | | |
| Low Satisfactory | Х | Х | | | | | | |
| Needs to Improve | | | | | | | | |
| Substantial Noncompliance | | | | | | | | |
| * The Lending Test is we an overall rating. | eighted more heavily than | the Investment and Service T | Fests when arriving at | | | | | |

The Lending Test is rated Low Satisfactory.

- Lending levels reflect adequate responsiveness to AA credit needs.
- An adequate percentage of loans are made in the institution's AA.
- The geographic distribution of loans reflects adequate penetration of small business and home mortgage loans throughout the AA.
- The distribution of loans to borrowers reflects, given the product lines offered by the institution, adequate penetration among businesses of different sizes and retail customers of different income levels.
- The institution makes limited use of innovative and flexible lending practices in order to serve credit needs in the AA.
- The institution has made an adequate level of community development loans.
- The institution exhibits an adequate record of servicing the credit needs of the most economically disadvantaged areas of its AA, low- income individuals, and very small businesses, consistent with safe and sound banking practices.

The Investment Test is rated <u>Low Satisfactory</u>.

- Although rarely in a leadership position, the institution has an adequate level of qualified community development investments and grants, particularly those that are not routinely provided by private investors.
- The institution exhibits adequate responsiveness to credit and community economic development needs.
- The institution occasionally uses innovative or complex investments to support community development initiatives.

The Service Test is rated High Satisfactory.

- Delivery systems are reasonably accessible to essentially all portions of the institution's AA.
- To the extent that changes have been made, the institution's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low-and moderate-income individuals.
- Services (including where appropriate, business hours) do not vary in a way that inconveniences certain portions of the AA, particularly low- and moderate-income geographies and individuals.
- The institution is a leader in providing community development services.

Discriminatory or Other Illegal Credit Practices

No violations of anti-discrimination laws or regulations or other illegal credit practices were noted during the evaluation.

DESCRIPTION OF INSTITUTION

Background

First Bank of Highland Park (FBHP) is a commercial bank that is a wholly-owned subsidiary of Bank of Highland Park Financial Corporation, a one-bank holding company in Highland Park, Illinois. The bank opened a branch in Skokie, Illinois in December 2019 and no branches were closed during the evaluation period. FBHP does not have any affiliates that offer lending products. The institution received a Satisfactory rating at its previous FDIC examination dated February 28, 2017, based on Interagency Large Bank Examination Procedures.

Operations

FBHP operates three full-service offices in northern Illinois. The main office is located in Highland Park (Lake County), with one branch in Northbrook, Illinois (Cook County) and one in Skokie, Illinois (Cook County). The Highland Park and Northbrook offices are located in upper-income geographies. The Skokie branch is located in a moderate-income census tract. All offices are located within 15 miles of one another.

FBHP is primarily a commercial lender, with an emphasis on commercial lease financing and commercial real estate lending. The leases are typically for items such as office equipment. Commercial lease financing is with lessors from across the nation. By nature, the lessors are not small businesses nor are the lessees, though the vast majority of lease loans are originated in amounts \$1.0 million or less.

In addition, FBHP offers traditional commercial equipment loans and lines of credit, and a range of consumer credit products including home equity lines of credit (HELOC) and consumer installment loans. Home mortgage lending is primarily for multi-family dwellings. The majority of the 1-4 family residential loans are for non-owner occupied and investor properties. Deposit products consist of an array of checking, savings, money market, and certificate of deposit accounts. FBHP also offers online banking, automated telephone banking, access to automated teller machines (ATMs), and drive-through facilities at all office locations.

Ability and Capacity

According to the December 31, 2019 Consolidated Reports of Condition and Income, FBHP reported total assets of \$1.9 billion, total loans of \$1.5 billion, and total deposits of \$1.5 billion. As of December 31, 2019, FBHP's net loan-to-deposit ratio was 95.5 percent, and its net loan-to-asset ratio was 78.4 percent. Additionally, the bank's investment portfolio totaled \$281 million, which represents 15.1 percent of total assets.

FBHP experienced growth in both assets and loans since the previous CRA evaluation. Total assets increased by \$388 million, or 26.3 percent, and total loans increased by \$252 million, or 20.6 percent. Loan growth by dollar volume has been primarily in commercial and industrial lending followed by multi-family lending. More specifically, from December 31, 2016, to December 31, 2019, commercial and industrial loans increased \$227 million (40.3 percent) and multi-family lending increased \$34 million (11.8 percent).

| Loan Portfolio Distribution as of 12/31/2019 | | | | | | | |
|----------------------------------------------|-----------|-------|--|--|--|--|--|
| Loan Category | \$(000s) | % | | | | | |
| Construction and Land Development | 90,113 | 6.1 | | | | | |
| 1-4 Family Residential | 83,217 | 5.7 | | | | | |
| Multi-family (5 or more) Residential | 325,160 | 22.1 | | | | | |
| Commercial Real Estate | 180,350 | 12.3 | | | | | |
| Loans to Depository Institutions | 325 | 0.0 | | | | | |
| Total Real Estate Loans | 679,165 | 46.2 | | | | | |
| Commercial and Industrial | 791,571 | 53.8 | | | | | |
| Consumer Purpose | 1,202 | 0.0 | | | | | |
| Other Loans | 16 | 0.0 | | | | | |
| Total Loans | 1,471,954 | 100.0 | | | | | |

The bank's loan portfolio as of December 31, 2019, is diversified between commercial and residential lending. Commercial lending, including commercial real estate loans, represents 66.1 percent of the loan portfolio, followed by residential lending at 27.8 percent. The loan portfolio also includes small percentages of construction and land development, consumer, and other loans. Examiners did not identify any financial or other legal impediments that hinder the bank's ability to provide credit within its AA.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more AAs within which its CRA performance will be evaluated. FBHP's designated AA includes all of Cook County, Illinois, which is located within the Chicago-Naperville-Joliet, Illinois Metropolitan Division (Chicago MD), and all of Lake County, Illinois, which is located within the Lake County-Kenosha County, Illinois-Wisconsin Metropolitan Division (Lake County MD). The AA is consistent with the requirements of the CRA.

Economic and Demographic Data

The AA includes all 1,473 census tracts in Cook and Lake Counties. These tracts reflect the following income designations according to the 2015 American Community Survey (ACS) data:

- 267 (18.1 percent) low-income tracts,
- 410 (27.8 percent) moderate-income tracts,
- 365 (24.8 percent) middle-income tracts,
- 415 (28.2 percent) upper-income tracts, and
- 16 (1.1 percent) census tracts with no income designation.

The following table reflects lower levels of owner-occupied housing units in low- and moderateincome geographies (29.2 percent) within the AA and higher concentrations of rental units (52.3 percent). This data highlights some obstacles financial institutions might face in originating home mortgage loans in these geographies.

According to the 2018 D&B data, 331,509 businesses operated in the AA. The table shows only 6.4 percent of the businesses are located in low-income census tracts and 19.2 percent are in moderateincome census tracts. The analysis under the Geographic Distribution criterion compares the distribution of small business loans by geography to the percentage of businesses located in each geography. This data highlights some of the challenges financial institutions might face in originating small business loans in these geographies.

The table illustrates select demographic characteristics of the AA using 2015 ACS data.

Sources: 2015 ACS Census and 2018 D&B Data. Due to rounding, totals may not equal 100.0. (*) The NA category consists of geographies that have not been assigned an income classification.

The analysis of small business loans under the Borrower Profile criterion compares the distribution of businesses by gross annual revenues (GARs). The GARs of businesses operating in the AA in 2018 are as follows:

- 81.1 percent report \$1.0 million or less,
- 8.2 percent report greater than \$1 million, and
- 10.7 percent did not report revenues to D&B.

Service industries represent the largest portion of businesses in the AA at 45.3 percent; followed by retail trade (13.2 percent); finance, insurance, and real estate (9.6 percent); construction (6.0 percent); and transportation and communication (4.9 percent). In addition, 63.5 percent of businesses have four or fewer employees, and 87.2 percent operate from a single location.

The 2017 and 2018 FFIEC-updated median family income (MFI) level is used to analyze home mortgage loans under the Borrower Profile criterion. The table below contains information on the median family incomes by category.

| | Medi | ian Family Income Range | es | |
|-----------------------|-------------------|-------------------------|-------------------------|----------------|
| Median Family Incomes | Low <50% | Moderate 50% to <80% | Middle 80% to <120% | Upper ≥120% |

| 2018 (\$96,500) | <\$48,250 | \$48,250 to <\$77,200 | \$77,200 to <\$115,800 | ≥\$115,800 |
| Source: FFIEC | • | • | • | |

Data obtained from the U.S. Bureau of Labor Statistics reflect that the 2018 year-end unemployment rate was 4.3 percent for the State of Illinois. The unemployment rates for Cook and Lake Counties were 4.0 percent and 4.5 percent, respectively. These unemployment rates reflect improvement since the previous evaluation when the 2016 year-end unemployment rates were 5.8 percent for Illinois, 6.0 percent for Cook County and 5.2 percent for Lake County. The decreases in the unemployment rates indicate an improving economy.

Competition

FBHP's AA is highly competitive in the market for financial services. Data from the FDIC Deposit Market Share Report as of June 30, 2019, shows 1,538 offices of 112 financial institutions operating within the AA. FBHP maintains a 0.47 percent deposit market share in the AA, ranking 22nd among all institutions. The majority of the market share is held by larger national financial institutions operating offices within the AA.

Aggregate small business lending data provides insight into the level of demand for small business loans within the AA. Aggregate lending data for 2017 shows 186 lenders reported 131,006 small business loan originations, while aggregate lending data for 2018 shows 202 lenders originated 149,137 small business loans, indicating a high degree of competition for this loan product. FBHP ranked 65th capturing 0.05 percent of the market share in 2017 and ranked 70th capturing 0.05 percent in 2018.

Additionally, a high level of competition in the AA exists for home mortgage loans among banks, credit unions, and non-depositor mortgage lenders. According to the 2017 aggregate data, 461 lenders reported 21,935 home mortgage loan originations and purchases. In 2018, aggregate data shows 438 lenders reported 20,805 home mortgage loan originations and purchases. FBHP ranked 242nd capturing 0.03 percent of the market share in 2017 and ranked 263rd capturing 0.02 percent in 2018.

Community Contacts

Recent community contact interviews with non-profit housing and community service agencies were conducted to assist examiners in identifying and understanding the credit and community development needs of the AA. The information helps examiners determine area needs and whether local financial institutions are responsive to these needs. The contacts stated needs exist for

increased access to affordable home mortgage loans (including rehabilitation loans), financing for start-up businesses, as well as small business lending for enterprises in low- and moderate-income areas. The contacts also stated that additional needs include financial literacy, low-cost checking accounts, secured credit cards and tools to build a credit history, and increased bank branches within smaller communities.

Credit and Community Development Needs and Opportunities

Considering the information from the community contacts and demographic data, examiners determined that community development needs in the AA include affordable housing, small business lending, and financial literacy for small businesses and retail customers. The relatively high level of low- and moderate-income families along with the percentage of businesses with revenues of \$1.0 million or less is reflective of these credit and service needs.

The AA provides numerous opportunities for involvement in community development activities. The Chicago metropolitan area contains empowerment zones and tax increment financing districts that are designated by local or state government entities for revitalization, stabilization, or economic development. These areas were established to stimulate economic activities that include job preservation and creation, and business and residential development. Additionally, the State of Illinois and local community organizations sponsor various programs to support affordable housing and economic development.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the previous evaluation dated February 28, 2017, to the current evaluation dated March 9, 2020. Examiners used the Interagency Large Bank CRA Examination Procedures to evaluate FBHP's CRA performance. These procedures include three tests: the Lending Test, Investment Test, and Service Test. The criteria for these procedures are listed in the Appendix.

The bank's overall rating is determined using a points system as defined in the Community Reinvestment Act regulation. Banks must achieve at least a Low Satisfactory rating under the Lending Test to obtain an overall Satisfactory rating.

Activities Reviewed

FBHP's CRA performance is based on an analysis of the universe of small business loans and leases and small business loans secured by nonfarm residential real estate (other small business loans). In addition, home mortgage loans, and HELOCs originated from January 1, 2017, through December 31, 2018 were also analyzed. Small farm lending was not evaluated as FBHP does not originate such loans and consumer loans were not reviewed as the volume is nominal. A majority of FBHP's small business loans consist of lease contract financing transactions. These transactions are not traditional commercial loans. Commercial lease financing occurs with various large lessors from across the nation to finance primarily office equipment. This is a niche loan product of the bank and as such, this loan product is analyzed separately from the small business loans. The lease contract financing is referred to as "small business lease" loans throughout this

evaluation. The universe of small business loans reported by the bank under the CRA data reporting requirements for the review period consisted of 673 small business lease loans totaling approximately \$155.3 million and 85 small business loans totaling approximately \$31.9 million.

Small business loans secured by nonfarm residential real estate were also reviewed. This type of financing represents a business focus for the institution and such transactions were reported in the CRA data. This loan type is referred to as "other small business" loans in this evaluation. FBHP originated 86 other small business loans totaling \$38.4 million during the review period.

Home mortgage loans subject to Home Mortgage Disclosure Act (HMDA) reporting requirements were reviewed. FBHP originated 77 home mortgage loans totaling \$96.9 million during the review period. HELOCs reported in the CRA data were reviewed; this product line represents a business focus for the institution. FBHP originated 126 HELOCs totaling approximately \$23.7 million during the review period.

Given the volume of loans for each product type reviewed and the bank's business focus, all loan products were weighed equally when drawing conclusions. Further, while both number and dollar volume of loans were considered, discussion of the bank's performance is limited to loans by number, as performance by dollar volume did not lead to different conclusions or noticeable trends.

Community development loans, qualified investments, and services, initiated or maintained since the previous CRA evaluation were also reviewed.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

FBHP's lending performance evidences adequate responsiveness to the credit needs in the AA. This rating is derived after considering the following factors: adequate percentage of loans in the AA; adequate geographic distribution of loans; adequate loan distribution by borrower profile; adequate record of serving the credit needs of the most economically disadvantaged areas of its AA, including low-income individuals, and very small businesses, consistent with safe and sound banking practices; limited use of innovative or flexible lending practices, and adequate level of community development loans.

Lending Activity

Lending levels reflect adequate responsiveness to AA credit needs. The number and dollar volume of loans originated during the review period were reviewed. Examiners also reviewed market share reports, aggregate lending data, and demographic data for primary loan products to determine the bank's level of lending. Market share reports provide greater context regarding competitive factors and the interest rate environment, especially for mortgage lending activity. Deposit market share data is reviewed to gain perspective on a bank's presence in a community. Market share data is available only for home mortgage and small business lending.

During the review period, FBHP originated 844 small business loans totaling approximately \$225.6 million (includes traditional small business loans, small business lease loans, and other small business loans); 77 home mortgage loans totaling approximately \$96.9 million; and 126 HELOCs totaling \$64 million. Further, FBHP originated 60 qualified community development loans totaling approximately \$70.4 million.

FBHP has maintained an average net loan-to-deposit (NLTD) ratio of 95.7 percent for the previous 13 quarters since the previous evaluation, which is indicative of a high level of loans in relation to the available deposits to fund loans. FBHP's NLTD was compared to five similarly-situated institutions located in the FDIC Chicago Region, which were selected based on similar asset size, loan concentrations, and complexity of operations. The average NLTD ratios of these institutions during the same 13-quarter period ranged from 56.6 percent to 98.7 percent. The bank's ratio is consistent with the similarly-situated banks.

Assessment Area Concentration

An adequate percentage of loans are made in the AA. A majority of small business loans, other small business loans, home mortgage loans, and HELOCs, by both number and dollar volume are within AA. However, a majority of small business lease loans by both number and dollar volume are outside the AA.

The following table reflects the distribution of the bank's loans inside and outside the AA.

As mentioned previously, FBHP established a niche in small business lease lending. This product is offered by other banks nationally and within the AA. Within the AA, only two other lenders providing a similar product were identified. While the small business lease activity negatively affects the bank's performance, a majority of all other loan products reviewed are in the AA.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the AA. The adequate distribution of small business loans, other small business loans, home mortgage loans, and HELOCs throughout the AA supports this conclusion. Although small business lease loans reflect poor performance, it is offset by small business loans and other small business loans, which reflect adequate performance. The analyses include only loans originated within the AA.

Small Business Loans

The geographic distribution of small business loans reflects adequate penetration throughout the AA. Performance is compared against the location of businesses by census tract income level (demographic) and aggregate data. Examiners weighed the comparison to aggregate data more heavily as it provides a better assessment of lending opportunities and activities in the AA.

FBHP's performance in low-income census tracts trails aggregate performance in 2017 and 2018. FBHP's performance in moderate-income census tracts also trails aggregate performance and compares unfavorably to the demographic in 2017 and 2018. However, the nearest concentration of low-income census tracts is approximately 13 miles from FBHP locations and the nearest concentration of moderate-income consist tracts is approximately seven miles away. In addition, though not included in the scope of this review, the bank's Skokie office (which opened December 2019) is located in a moderate-income geography. The location was determined, in part by management's desire to service more moderate-income areas. As a result, the loan distribution reflects adequate performance and a willingness to make loans in low- and moderate-income geographies.

| | | Geographic Dis | tribution of Small | Business I | loans | | |

The table reflects the distribution of small business loans by census tract income level.

Sources: 2017 & 2018 D&B Data; 1/1/2017 - 12/31/2018 Bank Data; 2017 & 2018 CRA Aggregate Data. Due to rounding, totals may not equal 100.0

Small Business Lease Loans

The geographic distribution of small business loans reflects poor penetration throughout the AA. Performance is measured against the demographic data in the AA, as aggregate lending data is not available for this loan category. The table shows no small business lease loans in low- or moderate-income geographies. This performance trails the comparable demographic; however, the demographic reflects all businesses and not just lessors involved in lease lending activities. As previously noted, small business lease lending is a niche product with FBHP, providing funding to lessors from across the nation and with limited presence in the AA, including in low- or moderate-income census tracts. While the benefit of these funds is further distributed to lessees, geographic data of the lessees was not available. Even considering these factors and the distance to the bank offices, the lack of originations in low- and moderate-income tracts is poor.

| Geographic Distribution of Small Business Leases | | | | | | | | | |
|--------------------------------------------------|------|--------------------|----|-------|----------|-------|--|--|--|

The table below reflects the distribution of small business lease loans by census tract income level.

Due to rounding, totals may not equal 100.0

Other Small Business Loans

The geographic distribution of other small business loans reflects adequate penetration throughout the AA. Performance is measured against the demographic data in the AA, as aggregate lending data is not available for this loan category.

| Get | graphic | Distribution of (| Juler Sinal | ii dusiness L | | |
|--------------------|---------|--------------------|-------------|---------------|----------|-------|
| Tract Income Level | | % of Businesses | # | % | \$(000s) | % |
| Low | | | | | | |

| Moderate | | | | | | |
| | 2017 | 19.2 | 7 | 14.3 | 2,158 | 9.6 |
| | 2018 | 19.2 | 11 | 30.6 | 4,585 | 29.3 |
| Middle | | | | | | |
| | 2017 | 27.3 | 8 | 16.3 | 3,589 | 16.0 |
| | 2018 | 27.2 | 9 | 25.0 | 2,548 | 16.3 |
| Upper | | | | | | |
| | 2017 | 46.4 | 29 | 59.2 | 13,594 | 60.4 |
| | 2018 | 46.5 | 14 | 38.8 | 7,760 | 49.5 |
| Not Available | | | | | | |
| | 2017 | 0.7 | 0 | 0.0 | 0 | 0.0 |
| | 2018 | 0.7 | 0 | 0.0 | 0 | 0.0 |
| Total | | | | | | |
| | 2017 | 100.0 | 49 | 100.0 | 22,496 | 100.0 |
| | 2018 | 100.0 | 36 | 100.0 | 15,665 | 100.0 |

The following table reflects the distribution of other small business loans by census tract income level.

FBHP's performance within low-income census tracts significantly exceeds the demographic in 2017 and is comparable to the demographic in 2018. Additionally, FBHP's performance within moderate-income census tracts compares favorably to the demographic in 2017 and significantly exceeds the demographic in 2018. Considering the proximity of bank offices to the low- and moderate-income census tracts and that demographic data represents the businesses in the AA and not those that may be seeking financing, the geographic distribution of other small business loans illustrates adequate performance.

Home Mortgage Lending

The geographic distribution of home mortgage loans reflects adequate penetration throughout the AA. An adequate distribution of multi-family home mortgage loans supports this conclusion. Given the limited number of owner-occupied home mortgage loans originated, no meaningful conclusions could be drawn; therefore, this does not affect the performance. As mentioned previously, a significant majority of the bank's home mortgage loans are secured by multi-family housing and non-owner occupied 1-4 residential housing. In 2017, the bank originated 27

multifamily loans, 14 non-owner occupied 1-4 family residential real estate loans, and five owner occupied 1-4 family residential loans. In 2018, the bank originated 30 multi-family loans, and one owner occupied 1-4 family residential loan. Performance is measured against the demographic data in the AA, as aggregate lending data is not available for this loan category. The following table reflects the distribution of multi-family loans by census tract income level.

Multi-Family Home Mortgage Loans

The geographic distribution of non-owner occupied multi-family home mortgage loans reflects adequate penetration throughout the AA. Performance is measured against the percentage of multi-family units (demographic), as well as applicable aggregate data. Examiners focused on the comparison to aggregate data as it better reflects the demand and opportunities for originating home mortgage loans in the AA. The table below details the distribution of home mortgage loans secured by multi-family properties by census tract income level.

| | Geogra | phic Distributior | n of Multi-Family H | ome Mortg | age Loans | | |
|--------------------|--------|----------------------|------------------------------------|-----------|-----------|----------|-------|
| Tract Income Level | | % of Multi Family | Aggregate Performance % of # | # | % | \$(000s) | % |
| Low | | | | | • | | |
| | 2017 | 12.0 | 15.4 | 5 | 18.5 | 4,246 | 12.7 |
| | 2018 | 13.0 | 23.1 | 3 | 10.0 | 3,444 | 6.6 |
| Moderate | | | | | • | | |
| | 2017 | 25.2 | 32.4 | 6 | 22.2 | 7,346 | 21.9 |
| | 2018 | 25.2 | 31.2 | 6 | 20.0 | 9,226 | 17.8 |
| Middle | | | | | | | |
| | 2017 | 24.0 | 23.1 | 4 | 14.8 | 4,425 | 13.2 |
| | 2018 | 24.0 | 17.0 | 5 | 16.7 | 5,019 | 9.7 |
| Upper | | | | | • | | |
| | 2017 | 26.6 | 28.6 | 12 | 44.4 | 17,487 | 52.2 |
| | 2018 | 36.6 | 28.2 | 15 | 50.0 | 30,790 | 59.4 |
| Not Available | | | | | | | |
| | 2017 | 1.2 | 0.5 | 0 | 0.0 | 0 | 0.0 |
| | 2018 | 1.2 | 0.5 | 1 | 3.4 | 3,360 | 6.5 |
| Total | | | · · | | - | - | - |
| | 2017 | 100.0 | 100.0 | 27 | 100.0 | 33,504 | 100.0 |
| | 2018 | | 100.0 | 30 | 100.0 | 51,839 | 100.0 |

FBHP's performance in low-income census tracts exceeded the demographic and aggregate performance in 2017, but lending decreased in 2018 and lagged behind both the demographic and aggregate. FBHP's performance in moderate-income census tracts trailed aggregate performance in 2017 and 2018. Considering the proximity of bank offices at that time in Highland Park and

Northbrook to the low- and moderate-income census tracts, the geographic distribution of multifamily home mortgage loans is adequate.

Non-Owner Occupied 1-4 family residential lending

In 2017, the bank originated 14 non-owner occupied 1-4 family residential loans. Of the 14 loans, the bank did not originate any in low-income census tracts, and originated one loan in a moderateincome census tract. The bank did not originate any non-owner occupied 1-4 family residential loans in 2018. As it is not a major loan product for the bank, lending of this specific loan product did not adversely affect the bank's overall home mortgage lending performance.

HELOC Lending

The geographic distribution of HELOCs reflects adequate penetration throughout the AA. Performance is measured against the demographic, as aggregate data for HELOCs is not available. The following table shows FBHP's performance in low-income census tracts significantly trailed the demographic in 2017 and 2018. FBHP's lending in moderate-income census tracts also significantly trailed the demographic during the review period.

| Geographic Distribution of HELOCs | | | | | | | | | |
|-----------------------------------|-------------------------------|----|-------|-------------|-------|--|--|--|--|
| Fract Income Level | % of Owner- Occupied Units | # | % | \$(000s) | % | | | | |
| Low | | | - | · · · · · · | | | | | |
| 2017 | | 1 | 1.5 | 162 | 1.3 | | | | |
| 2018 | 6.4 | 1 | 1.9 | 100 | 1.0 | | | | |
| Moderate | | | - | · · · · · · | | | | | |
| 2017 | 22.8 | 4 | 5.9 | 345 | 2.7 | | | | |
| 2018 | 22.8 | 1 | 1.9 | 100 | 1.0 | | | | |
| Middle | | | - | · · · · · · | | | | | |
| 2017 | 22.8 | 9 | 13.2 | 1,481 | 11.5 | | | | |
| 2018 | 32.8 | 4 | 7.5 | 648 | 6.8 | | | | |
| Upper | | | - | · · · · · · | | | | | |
| 2017 | 27.9 | 53 | 77.9 | 10,784 | 84.1 | | | | |
| 2018 | 37.8 | 47 | 88.7 | 8,752 | 91.2 | | | | |
| Not Available | | | - | · · · · · · | | | | | |
| 2017 | 0.2 | 1 | 1.5 | 57 | 0.4 | | | | |
| 2018 | 0.2 | 0 | 0.0 | 0 | 0.0 | | | | |
| Total | · | | | | | | | | |
| 2017 | 100.0 | 68 | 100.0 | 12,829 | 100.0 | | | | |
| 2018 | 100.0 | 53 | 100.0 | 9,600 | 100.0 | | | | |

Although this performance lags behind the demographic, as previously noted, the nearest concentration of low-income census tracts is approximately 13 miles away from a bank location and the nearest concentration of moderate-income census tracts is approximately seven miles away. The vast majority of HELOCs were originated in close proximity to the bank's two existing offices in Highland Park and Northbrook. Given these factors, FBHP's performance is adequate.

Borrower Profile

The distribution of loans to borrowers reflects, given the product lines offered by the institution, adequate penetration. The bank's adequate performance for small businesses and HELOC lending supports this conclusion. No conclusions were drawn regarding the home mortgage lending given that a significant majority of the loans originated were to those with an income designation of not applicable "NA" which are typically originated for investment purposes, and the income designation is reported as such on the bank's HMDA Loan Application Register (LAR). The following analyses include only loans originated within the AA.

Small Business Lending

The distribution of loans to borrowers reflects adequate penetration among businesses of different sizes. Performance is compared to the percentage of businesses with GARs of \$1.0 million or less (demographic) and aggregate data. Examiners applied more weight to the comparison of lending to aggregate data, as it is a better indicator of lending opportunities and demand in an AA. The distribution of small business loans to businesses with GARs of \$1.0 million or less exceeded aggregate data in 2017 and 2018. The following table details the distribution of small business loans by GAR of the businesses in the AA.

| Gross Revenue Level | % of Businesses | Aggregate Performance % of # | # | % | \$(000s) | % |
|-----------------------|--------------------|------------------------------------|----|-------|----------|-------|
| <=\$1,000,000 | | | | | | |

| 2018 | 81.2 | 43.5 | 16 | 50.0 | 4,109 | 37.7 |
| >1,000,000 | | | | | | |
| 2017 | 8.2 | | 15 | 31.3 | 5,758 | 32.6 |
| 2018 | 8.0 | | 8 | 25.0 | 2,647 | 24.3 |
| Revenue Not Available | | | | | | |
| 2017 | 10.8 | | 7 | 14.5 | 3,549 | 20.1 |
| 2018 | 10.8 | | 8 | 25.0 | 4,155 | 38.0 |
| Total | | | | | | |
| 2017 | 100.0 | | 48 | 100.0 | 17,647 | 100.0 |
| 2018 | 100.0 | | 32 | 100.0 | 10,911 | 100.0 |

Small Business Lease Lending

The distribution of loans to borrowers reflects poor penetration among businesses of different sizes. Performance is compared to the demographic factor, as aggregate lending data is not available for this loan category.

FBHP did not originate any small business lease loans to businesses with GAR of \$1.0 million or less. As previously noted, this lending is originated entirely to large lessors that work with large investment grade companies throughout the country and within the bank's assessment area.

| Gross Revenue Level | % of Businesses | # | % | \$(000s) | % |
|-----------------------|--------------------|----|-------|----------|-------|
| <=\$1,000,000 | | | | | |
| 2017 | 81.0 | 0 | | 0 | |

| Total | | | | | |
| 2017 | 100.0 | 18 | 100.0 | 7,129 | 100.0 |
| 2018 | 100.0 | 30 | 100.0 | 8,661 | 100.0 |

The table below reflects the distribution of small business lease loans by GAR of the businesses in the AA.

Other Small Business Lending

The distribution of loans to borrowers reflects adequate penetration among businesses of different sizes. Performance is compared against the demographic factor, as aggregate lending data is not available for this loan type.

| Distribution of Other Small Business Loans by Gross Annual Revenue Category | | | | | | |
|-----------------------------------------------------------------------------|--------------------|----|-------|--------|-------|--|
| Gross Revenue Level | % of Businesses | # | # % | | % | |
| <=\$1,000,000 | | | | | | |
| 2017 | 81.0 | 44 | 89.8 | 19,811 | 88.1 | |
| 2018 | 81.2 | 29 | 80.6 | 12,654 | 80.8 | |
| >1,000,000 | | | | | | |
| 2017 | 8.2 | 0 | | | | |
| 2018 | 8.0 | 1 | 2.8 | 288 | 1.8 | |
| Revenue Not Available | | | | | | |
| 2017 | 10.8 | 5 | 10.2 | 2,685 | 11.9 | |
| 2018 | 10.8 | 6 | 16.6 | 2,723 | 17.4 | |
| Total | | | • | | | |
| 2017 | 100.0 | 49 | 100.0 | 22,496 | 100.0 | |
| 2018 | 100.0 | 36 | 100.0 | 15,665 | 100.0 | |

The table below details the distribution of other small business loans by GAR of the businesses in the AA.

FBHP's performance is consistent with the demographic in 2017 and 2018. The demographic data includes the number of businesses operating within the AA and not those that may be seeking traditional financing. Additionally, in 2018, 63.5 percent of businesses in the AA had four or fewer employees, and 87.2 percent operated from a single location. This illustrates the large volume of small businesses within the AA that could potentially seek non-traditional financing. When considering this information, FBHP's performance in extending loans to small businesses is good and reflects its willingness to address the small business credit needs of its AA.

Home Mortgage Lending

Given the limited number of home mortgage loans originated with income information, no meaningful conclusions could be drawn regarding the borrower profile distribution for this loan product. During the review period, 69 of the 77 home mortgage loans originated within the AA had incomes reported as "NA." In 2017, 39 of 46 home mortgage loans had incomes reported as "NA." Of the loans with incomes reported, three were to low-income borrowers and none were to moderate-income borrowers. In 2018, 30 of 31 home mortgage loans had incomes reported as "NA." The one loan with income reported was to a moderate-income borrower.

HELOC Lending

The bank's origination of HELOCs reflects adequate penetration among borrowers of different income levels, including low- and moderate-income borrowers. The bank's performance is compared to the percentage of families within each income designation (demographic) as aggregate

| Distribution of HELOCs by Borrower Income Level | | | | | | | |

| | 2018 | 16.9 | 2 | 3.8 | 55 | 0.6 | |
| Middle | | | | - | | | |
| | 2017 | 17.8 | 13 | 19.1 | 3,230 | 25.2 | |
| | 2018 | 17.8 | 2 | 3.8 | 325 | 3.4 | |
| Upper | | | | | • | | |
| | 2017 | 38.3 | 46 | 67.6 | 8,554 | 66.7 | |
| | 2018 | 38.3 | 48 | 90.6 | 9,120 | 95.0 | |
| Not Available | | | | - | - | | |
| | 2017 | 0.0 | 1 | 1.6 | 100 | 0.8 | |
| | 2018 | 0.0 | 1 | 1.8 | 100 | 1.0 | |
| Total | | | | • | • | | |
| | 2017 | 100.0 | 68 | 100.0 | 12,829 | 100.0 | |
| | 2018 | 100.0 | 53 | 100.0 | 9,600 | 100.0 | |

data for HELOCs is not available. The table below shows the distribution of HELOCs by borrower income level in the AA.

Sources: 2015 ACS Census; 1/1/2017 - 12/31/2018 Bank Data. Due to rounding, totals may not equal 100.0.

The table shows the bank's lending to low- and moderate-income borrowers is below the percentage of families for these income categories. The percentage of families is the best available demographic available, but it is important to note that it represents the percentage of families that exist and not necessarily those seeking financing through this type of loan product. Low- and moderate-income families face challenges in obtaining credit for first lien home mortgage loans, and greater challenges in obtaining HELOC, which typically takes the form of second mortgages. High median home values and the percentage of families living below the poverty level in the AA make home ownership challenging and obtaining HELOC even more challenging. Further, HELOC loans are typically obtained by borrowers with higher incomes and equity in their homes. Considering the challenges that exist, the bank's HELOC lending to low- and moderate-income borrowers reflects adequate performance.

Innovative or Flexible Lending Practices

FBHP makes limited use of innovative or flexible lending practices to serve its AA's credit needs. The bank partnered with the Community Partners for Affordable Housing for the Critical Home Repair Program. FBHP has also partnered and arranged for Small Business Administration 504 loans.

Community Development Loans

The institution made an adequate level of community development loans in the AA. FBHP's community development lending initiatives include affordable housing, economic development, community services, and revitalization and stabilization of low- or moderate-income geographies.

FBHP originated 61 community development loans totaling approximately \$70.4 million during the evaluation period. This volume represents approximately 4.8 percent of net loans outstanding as of December 31, 2019. It is also consistent with other comparable peer institutions in the AA. These loans were originated since the previous evaluation, have a community development purpose and are not considered in the analysis of small business and home mortgage loans. The following table details FBHP's community development loans.

| Community Development Lending | | | | | | | | | | | | |
|-------------------------------|-----------------------|-----------------------|---|----------|---|----------|-------------------------|----------|----------------------------|----------|-------|--|
| Activity | | Affordable Housing | | | | | Economic Development | | Revitalize or Stabilize | | Total | |

Examples of the institution's community development loans in the AA are described below.

- The properties securing the affordable housing loans encompass 856 housing units with rental rates consistent with the capacity of low- and moderate-income individuals. Community contacts identified affordable housing as a primary credit need in the AA.
- The community services loans include \$2.0 million to an organization that creates opportunities for low-income communities and people with disabilities.
- The bank provided funds into a loan pool through a community organization that supports job creation for low- and moderate-income individuals in the AA.
- The bank provided revitalization funding for single-family residences in low- and moderateincome census tracts in the AA.

<u>Responsiveness to Credit Needs of Highly Economically Disadvantaged Geographies and</u> <u>Low-Income Individuals and Small Businesses</u>

The institution exhibits an adequate record of servicing the credit needs of the most economically disadvantaged areas of its AA, low-income individuals, and very small businesses, consistent with safe and sound banking practices. As previously noted, FBHP originates numerous multi-family home mortgage loans. A significant number of these loans are located in low- or moderate-income census tracts and provide affordable rents to low- and moderate-income families. Further, the vast majority of other small business loans are originated to businesses with GARs of \$1.0 million or less. These loans are responsive to the needs of low-income individuals and very small businesses.

INVESTMENT TEST

FBHP has an adequate level of qualified investments, particularly those that are not routinely provided by private investors, although rarely in a leadership position. The institution exhibits adequate responsiveness to credit and community economic development needs of the AA. FBHP occasionally uses innovative or complex investments to support community development initiatives.

Investment and Grant Activity

The institution has an adequate level of qualified community development investments and grants, although rarely in a leadership position. FBHP made 398 qualified donations and grants totaling \$1.1 million and funded 49 new qualified investments totaling \$14.0 million during the review period. In addition, the bank maintained 11 prior period investments totaling approximately \$3.2 million during the current review period.

The total qualified investments, donations, and grants represent 6.5 percent of total securities as of December 31, 2019. This level of investments is consistent with other comparable peer institutions in the AA. Donation and grant activity is provided by First Bank of Highland Park Foundation, a foundation established and funded by the bank for such activities.

Community development investments include:

- Investments in qualified CRA investment funds earmarked to various affordable housing purpose loan pools. FBHP reinvests all dividends received back into the fund.
- Municipal bond holdings that support affordable housing including bonds to finance Chicago Housing Authority projects and projects through the Illinois Housing Authority. Both entities provide housing options for some of most economically disadvantaged individuals and geographies in the AA.
- Municipal bond holdings that support education efforts in various school districts comprised primarily of low- and moderate-income students.
- Certificates of deposit maintained at minority-owned or community development financial institutions (CDFI). CDFIs promote community development as their primary mission.

Responsiveness to Credit and Community Development Needs

FBHP exhibits adequate responsiveness to the credit and community development needs of the AA. As stated previously, community contacts identified that the AA is in need of affordable housing for low- and moderate-income individuals. FBHP participated in investment funds as well as municipal bond holdings that support affordable housing within the AA.

Community Development Initiatives

FBHP made occasional use of innovative or complex investments to support community development initiatives. FBHP partnered with a local affordable housing organization to establish an Individual Development Account (IDA) Home Repair Savings program in which participant dollars are matched by the bank, up to \$500 per year, for use on repairs to homes purchased through assistance by the organization.

SERVICE TEST

Accessibility of Delivery Systems

FBHP operates three offices; two are located in upper-income census tracts and one is located in a moderate-income census tract. All offices are reasonably accessible to essentially all portions of the AA, though the demographics of the area immediately surrounding the offices impacts the accessibility of the offices to geographies of different income levels, including low- and moderate-income. FBHP also provides banking services through online banking and bill pay, telephone banking, mobile deposit, and 24-hour ATMs at all office locations.

Changes in Branch Locations

To the extent changes have been made, the institution's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. One branch in Skokie opened since the prior evaluation. As previously stated, the branch is located in a moderate-income geography.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences portions of the AA or any group of individuals. All offices provide drive-up services and have 24-hour deposit-taking ATMs. The main office is open from 9:00 AM to 5:00 PM Monday through Friday and 9:00 AM to 1:00 PM Saturday. In addition, the Northbrook branch is open Monday through Friday from 9:00 AM to 5:00 PM and Saturday 9:00 AM to 1:00 through the drive-up.

Community Development Services

FBHP is a leader in providing community development services. During the evaluation period, bank employees, management, and Board members participated in 224 qualifying community development services, totaling 8,493 hours. The services qualify for consideration as they use the individuals' financial expertise in serving on Boards of Directors, finance committees, fundraising committees, and planning committees for numerous organizations, including organizations that serve low- and moderate-income individuals or support affordable housing in the assessment area.

Additionally, FBHP's volume of services significantly exceeded the level of services provided by similarly situated institutions in the assessment area and demonstrates continuing commitment to serving its assessment area. While not financial in nature, FBHP supports outreach programs for local community non-profit organizations by donating use of its community room and boardroom for meetings.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

No violations of anti-discrimination laws or regulations or other illegal credit practices were noted during the evaluation.

APPENDICES

LARGE BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, other secured, and other unsecured. The bank's lending performance is evaluated pursuant to the following criteria:

- 1) The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area;
- 2) The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:
 - i. The proportion of the bank's lending in the bank's assessment area(s);
 - ii. The dispersion of lending in the bank's assessment areas(s); and
 - iii. The number and amount of loans in low-, moderate-, middle- and upper-income geographies in the bank's assessment area(s);
- 3) The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:
 - i. Home mortgage loans low-, moderate-, middle- and upper-income individuals
 - ii. Small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;
 - iii. Small business and small farm loans by loan amount at origination; and
 - iv. Consumer loans, if applicable, to low-, moderate-, middle- and upper-income individuals;
- 4) The bank's community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and
- 5) The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- and moderate-income individuals or geographies.

Investment Test

The Investment Test evaluates the institution's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s). Activities considered under the Lending or Service Test may not be considered under the investment test. The bank's investment performance is evaluated pursuant to the following criteria:

- 1) The dollar amount of qualified investments;
- 2) The innovativeness or complexity of qualified investments;
- 3) The responsiveness of qualified investments to available opportunities; and
- 4) The degree to which qualified investments are not routinely provided by private investors.

Service Test

The Service Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

The bank's retail banking services are evaluated pursuant to the following criteria:

- 1) The current distribution of the bank's branches among low-, moderate-, middle-, and upperincome geographies;
- 2) In the context of its current distribution of the bank's branches, the bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
- 3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.*, RSFs, RSFs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
- 4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

The bank's community development services are evaluated pursuant to the following criteria:

- 1) The extent to which the bank provides community development services; and
- 2) The innovativeness and responsiveness of community development services.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions.

Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of <u>financial</u> services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or

(3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middleincome geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Commercial Loan Products and Fees

First Bank Chicago operates a Commercial Lending Department to serve the needs of corporate and commercial clients.

Products offered are:

- Commercial and Industrial Loans
- Commercial Lease Financing
- Equipment Financing
- Commercial Real Estate Loans
- Construction Loans
- Lines of Credit
- SBA 504 Loans
- Acquisition Financing
- Letters of Credit

Fees for Commercial Products are negotiated at the time of the transaction. Commercial Lenders are available to meet with clients at the Northbrook and Skokie branch locations, the Westchester Loan Production Office, or at the client's place of business.

Consumer Loan Products and Fees

Refer to the attached "Consumer Loan Products and Fees" current as of March 2024. Consumer Lenders are available to meet with clients at the Highland Park location.

* * * * *

Consumer Loan Products and Fees

As of March 2024

Home Equity Term Loan

These loans are secured by the equity in a borrower's home. The proceeds of these loans may be utilized for any purpose.

Origination Fees: None

Release Fee: A \$125.00 fee is incurred by borrower at the time of account closing.

The borrower may also incur the additional responsibility for expenses such as, but not limited to, title associated fees charged by a Title Company and/or other third-party providers.

Home Equity Lines of Credit

These loans are secured by the equity in a borrower's home. The proceeds of these loans may be utilized for any purpose. Home Equity Lines of Credit allow the borrower convenient accessibility of proceeds by check or transfer to an account at any time.

Origination Fee – Credit Limit up to \$750,000: None

Origination Fee – Credit Limit greater than \$750,000: None

Annual Fee: None

Release Fee: A \$125.00 fee is incurred by borrower at the time of account closing.

The Home Equity Line of Credit is subject to an early account-closing fee. In the event a Home Equity Line of Credit is closed within 36 months of origination a fee of \$500.00 or 2% of the Credit Limit (whichever is less) is charged.

If the loan closes at a title company, Borrower may also incur the additional responsibility for expenses such as, but not limited to, title associated fees and closing fees charged by the title company and/or other third-party providers which will generally total between \$0.00 and \$2,000.00.

Consumer Loan Products and Fees (continued)

As of March 2024

Installment Loans

This financing is established for a certain amortization and may be utilized to finance a major consumer need such as the purchase of a vehicle.

Origination Fee: None

The borrower may also incur the additional responsibility for expenses incurred by Lender to prefect its lien on collateral pledged.

Line of Credit

This financing is typically established for one year with interest only payments due monthly. Funds up to the maximum credit can be advanced and repaid throughout the term of the loan.

Origination Fee: None

The borrower may also incur the additional responsibility for expenses incurred by Lender to prefect its lien on collateral pledged.

Single Payment Loan

This financing is typically established for one year with interest only payments due monthly.

Origination Fee: None

The borrower may also incur the additional responsibility for expenses incurred by Lender to prefect its lien on collateral pledged.

CD Secured Loans

These loans are for consumers in which a Certificate of Deposit is pledged as collateral. The loan term must not exceed the term of the pledged Certificate of Deposit.

Origination Fee: None

Other Fees: None

The borrower may also incur a penalty in the event the certificate of deposit is closed prior to maturity.

The Bank reserves the right to change loan products and fees at its discretion.

HOME MORTGAGE DISCLOSURE ACT NOTICE

The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. HMDA data for many other financial institutions are also available online. For more information, visit the Consumer Financial Protection Bureau's Web site (www.consumerfinance.gov/hmda).

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.
